the top 50 in the World University Rankings within the next decade. "We are pushing for internationalisation by recruiting more foreign faculty," says Rao. "We want to recruit 100 foreign faculty members in the coming five years and have announced 500 PhD fellowships for foreign students." For the first time in IIT-Delhi's history, the institute is offering a joint PhD programme in collaboration with foreign universities. The international partners are the University of Queensland, Australia, and Taiwan's National Chiao Tung University. IIT-Delhi has emerged as the country's strongest provider of highly employable

DANESH JASSWALLA

IIT-Delhi has collaborated with the University of Queensland, Australia, and National Chiao Tung University, Taiwan, to offer joint PhD programmes

graduates, as per the QS Graduate Employability Rankings, 2018. To add to the new initiatives taken in the past couple of years, IIT-Delhi, traditionally known for offering only degree programmes, has now been approved to offer diploma courses to working professionals in areas such as artificial intelligence and blockchain technology, keeping in tune with industry needs. Jashan Singh Suri, who is pursuing a dual degree in the department of biochemical engineering and biotechnology, says, "The campus is often visited by multinational companies from fields such as finance, business and consulting, giving students who wish to switch their careers from engineering an array of opportunities."
